"How Can I Learn How to Style in Excel?" is a question that is often asked by individuals who are looking to improve their skills in using Microsoft Excel. Styling in Excel refers to the various formatting and design options that can be applied to cells, data, and charts to make them more visually appealing and organized. To learn how to style in Excel, one can take advantage of online tutorials, attend workshops or classes, or refer to Excel's built-in help resources. Additionally, practice and experimentation with different styling techniques can also enhance one's proficiency in using Excel's style features. By learning how to style in Excel, individuals can create professional and visually appealing spreadsheets, which can greatly enhance their productivity and efficiency in using this powerful tool.

Study at your own pace. Be in control of your time

Earn a certificate

Document your knowledge and skills

## Learn How to Style in Excel

This Guided Project helps you to learn how to style and make things presentable in Microsoft Excel.

Learn with **Daria Torochyn**, our subject matter Expert in this applied learning experience.

The format is a split-screen video where you follow the step-by-step instructions from the trainer.

### What you will learn

Adding and styling of tables. Adding pictures to charts. Learn about making elements such as charts and tables presentable with pictures, themes and styles.

## Why learn with a Guided Project?

**Gain-job relevant skills** with short and applied learning experiences.

**Build competence** by learning from subject matter experts.

**Increase your employability** by adding value to your CV and resume.

**Save time and money.** It costs a fraction of a full qualification, and the results are the same.

## How a Guided Project works

Video based learning where you get hands-on with a split screen.

Trying things on your own and paying attention to the instructions given by the trainer.

It has everything you need right in the browser. Complete cloud-based, **no download required.**

Learn step-by-step in a **split screen** environment with a subject matter expert.

## Project Overview

**Fee:** 9,99 USD

**Duration:** 90 min

**Earn a certificate:** Yes

**Difficulty level:** Beginner

**Language:** English

**Format:** Split-screen video

**Device:** Desktop only

**Other:** No downloads needed

**Vendor:** Coursera
