The UPPER function in Google Sheets is a tool that allows users to convert text to all uppercase letters. This can be useful in cases where all text needs to be capitalized, such as in a title or heading. To use the function, simply type "=UPPER(" in a cell followed by the text you want to convert, and close the parentheses. The function will automatically convert the text to uppercase letters. It is a quick and efficient way to change the case of text in a Google Sheets spreadsheet.

UPPER function

Converts a specified string to uppercase.

Sample Usage

```
UPPER("lorem ipsum")
```

```
UPPER(A2)
```

Syntax

```
UPPER(text)
```

text - The string to convert to uppercase.

See Also

PROPER: Capitalizes each word in a specified string.

LOWER: Converts a specified string to lowercase.
