To change the font in Stata on a PC, follow these steps:

1. Go to the "Tools" menu and select "Preferences".
2. In the "General" tab, click on the "Fonts" button.
3. Choose the font you want to change (e.g. "Results font" or "Editor font").
4. Click on the "Set" button and select the desired font from the drop-down menu.
5. Click "OK" to save the changes.

By following these steps, you can easily change the font in Stata on a PC to suit your preferences and needs.

## How do I change the font (PC version)? | Stata FAQ

**You can change the font style and font size for most windows by right-clicking in the window and then selecting "Font...". In a Stata do-file, you can right-click and then select "Preferences..." and change the font style and size in the "General" tab.**
