RECOMMENDED CITATION

mohammad looti (2025). *AFFIRMING THE CONSEQUENT*. PSYCHOLOGICAL SCALES.
Retrieved from <https://scales.arabpsychology.com/?p=67621>

an official misconception in which someone confirms the side effect of an If

AFFIRMING THE CONSEQUENT: "Example of affirming the consequent: If the temperature is below freezing, the pond will be frozen. The pond is frozen, therefore the temperature must be below freezing."
