## RECOMMENDED CITATION

mohammad looti (2025). *BIOGENESIS*. PSYCHOLOGICAL SCALES. Retrieved from <https://scales.arabpsychology.com/?p=67170>

n. the origin of living matter from other living matter, or the production of living organisms from other living organisms. This is achieved by means of reproduction. It is the ability of parent organism/s to reproduce new offspring which further perpetuates the species.

BIOGENESIS: "In a nutshell, the Law of Biogenesis is of the viewpoint that life comes from life."
