RECOMMENDED CITATION

mohammad looti (2025). *BIOLOGICAL STRESS*. PSYCHOLOGICAL SCALES. Retrieved from <https://scales.arabpsychology.com/?p=47977>

n. any condition that puts pressure and makes demands on both the physical and psychological defense system of a living organism. It can be triggered by a change in temperature (hot/cold), an injury that leads to disability (temporary/permanent), or the onset of disease (acute/chronic).

BIOLOGICAL STRESS: "Any form of pressure that gets an organism's defenses up and threatens its very existence can be called a biological stress."
