RECOMMENDED CITATION

mohammad looti (2025). *BRAIN CENTER*. PSYCHOLOGICAL SCALES. Retrieved from <https://scales.arabpsychology.com/?p=67149>

n. any of the areas and regions of the brain which are known to perform one or more specific functions. To name a few, there are those which are designated as the visual center, the hunger center, the pleasure center, and the sleep center.

BRAIN CENTER: "The brain is such a highly-sophisticated structure that it is organized in function per brain center. "
