## RECOMMENDED CITATION

mohammad looti (2025). *BUPROPION*. PSYCHOLOGICAL SCALES. Retrieved from <https://scales.arabpsychology.com/?p=64823>

n. an antidepressant which is prescribed as either a fast-release or extended-release preparation. (Trade name: Wellbutrin, Zyban) It augments the treatment of conditions involving hyperactivity and attention deficit. Combined with behavioral treatment, it also helps a patient stop smoking.

BUPROPION: "Bupropion hits two birds with one stone by putting a halt to both depression and smoking."
