RECOMMENDED CITATION

mohammad looti (2025). *CONCEPT LEARNING*. PSYCHOLOGICAL SCALES. Retrieved from <https://scales.arabpsychology.com/?p=47509>

1. learning the determining components that are symbolic or typical of a certain category, or those traits that are required and adequate to define members of a category of items, correlations, or activities. 2. the obtaining of new ideas or the changing of current ones. Commonly referred to as conceptual learning.

CONCEPT LEARNING: "Concept learning helps humans and nonhumans to understand what many items are by those similar to it we are familiar with."
