RECOMMENDED CITATION

mohammad looti (2025). *Higher Mental Processes*. PSYCHOLOGICAL SCALES. Retrieved from <https://scales.arabpsychology.com/?p=30547>

The term, higher mental processes, refers to the human ability to take knowledge and learning and use it create new things, ideas and concepts. For instance, this is how scholars, scientists and researchers take the foundation of their education and experience to formulate new ideas and use those ideas to create new things, concepts and theories.
