RECOMMENDED CITATION

mohammad looti (2025). *Manifest Anxiety*. PSYCHOLOGICAL SCALES. Retrieved from <https://scales.arabpsychology.com/?p=32115>

Manifest anxiety is having feelings of nervousness, worry, or unease due to underlying repressed and conflicting feelings. For instance, it is measured by asking an individual if he feels that he is about to go to pieces, often take things hard, are worried beyond reason over trivial things, usually feels hungry, and has diarrhea for at least once a month.
