RECOMMENDED CITATION

mohammad looti (2025). *MATING BEHAVIOR*. PSYCHOLOGICAL SCALES. Retrieved from <https://scales.arabpsychology.com/?p=47527>

otherwise known as animal courtship, mate selection, coital behaviour which typically arises during the processes of reproduction. Different species can display different behaviours or visual parades to attract mates whilst others can produce distinctive mating calls to indicate the readiness to mate.

MATING BEHAVIOR: "Some animals, mostly those who have a choice of mates display mating behaviours which can attract the best mate in a large flock of birds for example."
