RECOMMENDED CITATION

mohammad looti (2025). *MONOCHORIAL TWINS*. PSYCHOLOGICAL SCALES. Retrieved from <https://scales.arabpsychology.com/?p=61163>

are always mono-zygotic. They are twins, in utero, which have shared the same embryonic membrane which is the outermost one (the chorion membrane) in the womb.

MONOCHORIAL TWINS: "The formation of monochoorial twins occurs when two embryos share the same embryonic membrane."
