RECOMMENDED CITATION

mohammad looti (2025). *PARALLEL PROCESSING*. PSYCHOLOGICAL SCALES.
Retrieved from <https://scales.arabpsychology.com/?p=48455>

data processing wherein at least two chains of functions are carried out at the same time by independent processors. An ability for this in the mind of a human being would justify individuals obvious capacity to carry on varied cognitive acts at the same time. Commonly referred to as simultaneous handling.

PARALLEL PROCESSING: "Parallel processing is easier for a computer than it is for the human mind."

DECENTRALIZED ORGANIZATION PLEASURE PRINCIPLE
