## RECOMMENDED CITATION

mohammad looti (2025). *Retaliatory Aggression*. PSYCHOLOGICAL SCALES. Retrieved from <https://scales.arabpsychology.com/?p=34712>

Retaliatory aggression is a behavior that is committed to 'get back' at another person. It is essentially aggression to get revenge on another person. A very primal example would be a wolf who bites another wolf in its pack. The second wolf bites the first wolf as a reaction to the bite and to retaliate for being bitten.
