RECOMMENDED CITATION

mohammad looti (2025). *THEOBROMINE*. PSYCHOLOGICAL SCALES. Retrieved from <https://scales.arabpsychology.com/?p=53027>

noun. a methylxanthine alkaloid which takes place organically within the seeds of the cocoa plant. Theobromine is anatomically alike to theophylline in tea and caffeine in coffee, but has a reduced pharmacological potency as compared to these methylxanthines.

THEOBROMINE: "Theobromine is one of the stimulating caffeine-like substances in chocolate."
