RECOMMENDED CITATION

mohammad looti (2025). *TUFTED CELL*. PSYCHOLOGICAL SCALES. Retrieved from <https://scales.arabpsychology.com/?p=53046>

one of the specialized forms of cells engaged in the perception of smell. The tufted cells are efferent neurons residing within the olfactory bulb. They synapse with receptor neurons inside the glomerular layer and leave the bulb inside the lateral olfactory tract.

TUFTED CELL: "Tufted cells are sometimes more difficult to spot and require higher magnification."
